

HOW DOES CGM WORK?

("Continuous glucose monitoring," 2017)

THE INITIAL VISIT

- Education Intake – Assessment
- Discuss CGM Basics
- Signed Consent – Patient Responsibilities
- Apply the Sensor
- Schedule the follow-up visit

THE FOLLOW-UP VISIT

- Remove Sensor and Download Data
- Review with patient – Behavior & Therapy Recommendations
- Refer to Primary Care, as needed

CLINICAL WORKFLOW -- LOGISTICS

- Where will you keep everything?
- Who will perform the initial training and sensor insertion?
- Who will perform the data analysis at the follow-up visit?
- How will the CGM data be entered into the patient records?
- How will you pay for the sensors?
- How will you be reimbursed for the sensors?
